NEW HOMESTEADS IN
THE GOVERNMENT
FORESTS

Eight homesteaders secured land in the national forests of district No. 4 today according to favorable notice transmitted each applicant by District Forester E. A. Sherman. Five of the tracts listed under the forest homestead act are located in Idaho and three in Utah.

Samuel Abbott of Paragonah, Utah, secured 160 acres of land in the Sevier national forest, on Bear creek, tributary to the Sevier river, about 25 miles from Panguitch, on the county road leading to Parowan. The land is non-timbered and has a sandy soil ranging in depth from one to three feet. A small stream runs through the area and can be developed so as to irrigate 25 or 30 acres of the land. Good crops of timothy, and redtop, wheat, oats and other grains can be raised. Private lands of a similar nature, under cultivation and including a good water right, in that locality, sell at about \$40 per acre.

G. W. Johnson of LaSal, Utah, secured 40 acres of land in the LaSal national forest, this being the entire area applied for. The land is located on both sides of LaSal creek, about 8 miles from LaSal postoffice. For some time past it has been used by a large cattle company, which has fenced a portion of the tract and farmed about 10 acres of land. Upon examination, the remainder of the land was found to have a scanty covering of juniper and pinon of very little value. The soil is a black loam with clayey subsoil, varying in depth from 18 inches to 3 feet. The altitude is 7,800 feet and the precipitation ranges from 18 inches to 35 inches per annum, making dry farming perfectly practicable. It is believed that the land can be successfully farmed and good crops of hay, grain, potatoes and garden truck raised. All of the land excepting a strip of willow along the creek, can be cleared and planted in alfalfa and under cultivation the tract should be worth about \$25 an acre.

David P. Black, Verdure, Utah, secured 160 acres of land in the LaSal national forest, located on Verdure creek watershed, about 2 miles from the Verdure postoffice. For some time past the land has been used for agricultural purposes by an employee of the Verdure Livestock company, under special use permit from the forest service. Also, in 1908, a portion of it was occupied by a squatter, who, however, abandoned the place rather than continue settlement and cultivation. The land is covered with a scanty growth of yellow pine timber in poor condition and of low stumpage value. Upon examination the land was classified as chiefly valuable for agriculture. It is believed that approximately thirty bushels of wheat or oats per acre can be raised under proper cultivation. Similar land in that vicinity, when improved, sells for \$25 per acre.

J. B. Randall of High Valley, Ida., secured 40 acres of land in the Payette national forest, located on Squaw creek, about 6 miles from Ola postoffice. Only 40 acres was applied for. Upon examination it was found to contain a scattered growth of yellow pine and red fir, aggregating about 25,000 feet, of comparatively low present value. Similar land in this vicinity is rare, and three or four tons of hay to the acre, and 25 to 40 bushels of grain. The soil is about three feet deep, and it is believed that under proper cultivation this will make an excellent dry farm, worth not less than \$20 an acre when improved and cultivated.

Charles J. Rumbarr, Small, Ida., secured 150 acres of the Lemhi national forest, on Crooked creek, near the stage road leading from Dubois to Reno, Ida. The land in question was settled on in 1907 by Mr. Rumbarr, who has resided on it intermittently ever since. It contains no timber, but owing to its location with reference to adjoining valuable timber areas, the forest boundary line was drawn so as to include this area. However, upon examination it was found to be chiefly valuable for agriculture. There is an abundance of water for domestic purposes, and the soil is normally sufficiently moist to produce hay and grain crops without irrigation. In fact, under Rumbarr's care crops of corn and grain produced running from two to four tons to the acre, while he has raised 25 bushels of wheat to the acre, and 50 to 60 bushels of oats. This will make an exceedingly valuable and productive farm.

Emil Niederer, of Archer, Ida., secured 100 acres in the Palisades national forest on Canyon creek, about 25 miles northwest of Rexburg, Ida. The land occupies the high foothills at the base of the mountain inside the national forest boundary. It has a scattered growth of lodgepole pine and aspen, not sufficiently valuable, however, to offset its value for farming purposes. It is believed that under proper management this place can be successfully cropped as a dry farm, and that crops of grain running from 15 to 30 bushels per acre can be raised. Owing to the high altitude (8,500 feet) the homesteader may encounter occasional crop failures. Otherwise, his success will be limited entirely by his industry.

Miss Elsie Herrington of Council, Ida., secured 35 acres of land in the Weiser national forest, adjoining her present homestead, about 18 miles from Council. The land is covered with a scanty growth of mature yellow pine trees, not sufficient in value, however, to warrant withholding the land from cultivation. Between 25 and 30 acres of land recommended for listing can be cultivated when cleared of loose surface rock and brush. It is best suited to the raising of grain under dry farm methods. The average crop under average conditions should be 25 to 30 bushels per acre, and when cleared for cultivation the land will be worth about \$25 an acre.

Gilman Rhinehart of Council, Ida., secured 160.64 acres of land on a small tributary of the Middle Fork of Weiser river, about 8 miles from Council valley. The land is surrounded on the north, east and west by high hills and slopes gently towards the west to a small stream. There is a small portion of the land which is too steep for farming, but the greater portion is nearly level. The tract contains about 30,000 feet of yellow pine timber, which, however,

in the morning our wagons leave with their first orders. During the day other deliveries are made at regular times. Nothing is more aggravating to the housewife than to be all ready to prepare dinner and—no groceries. We have worked hard on this matter of deliveries and believe that we can more than satisfy you. Order your supplies here and then leave the rest to us.

NEW ARRIVALS—Spinach—Florida Grape Fruit.

BEILISS DROPS
BEHIND IN TRIAL

is not marketable at the present time. The entire area is covered with a thick growth of aspen, willow and ceanothus. There is no water available for irrigation, but it is believed that the land can be made to yield fair crops under dry farm methods. From 20 to 50 bushels of grain per acre should be secured during favorable seasons. When improved for cultivation this farm should make an exceedingly pleasant and productive farm unit.

Praises This Remedy
for Lung Trouble

Many people are led to believe that Lung Trouble is a disease which cannot be conquered. This is wrong, as many have fully recovered their health. A change of climate has helped some, but many more have been restored to health by breathing the freshest air, eating well cooked wholesome food, being temperate in their habits and adding the tonic qualities of Eckman's Alternative, a medicine for Throat and Lung Troubles. Investigate this case.

Bowling Green, Ky., R. No. 4. "Gentlemen: The spring of 1908 I had a severe cough for six months. I tried all the medicine that my doctors recommended to me, but no results came from the better. I had night sweats, and would cough and spit until I got so weak I could hardly do anything. But, at last, James Deering, of Glasgow, Junction, insisted that I try your medicine. In one week's time there was quite an improvement in my condition, and after I had taken several bottles I felt as well as ever in my life. I firmly believe that Eckman's Alternative will relieve any case of lung trouble if taken before the last stage."

(Affidavit) A. C. BETTERWORTH. (Above abbreviated, more on request.)

Eckman's Alternative has been proven by many years' test to be most efficacious for severe Throat and Lung Affections, Bronchitis, Bronchial Asthma, Stomach Colds and in upbuilding the system. Contains no narcotics, poisons or habit-forming drugs. Sold by leading druggists. Write the Eckman Laboratories, Philadelphia, Pa., for booklet telling of recoveries and additional evidence.

WINNEMUCCA NORTHERN
MAKING IDAHO SURVEYS

Salt Lake, Oct. 16.—J. W. Ferguson of Winnemucca is in the city conferring with representatives of the Western Pacific railroad, with which he is connected at Winnemucca. He reports that business in the Nevada town is on the increase and that the cattlemen in that section of the state have enjoyed one of the best years in the history of the cattle business in northern Nevada.

He states that the Winnemucca Northern railroad, which is proposed to connect Winnemucca with Boise, Idaho, and give the Idaho capital a direct line into San Francisco, is making surveys and the engineers are in the Jordan valley in Oregon. As to the connection of the Western Pacific with the proposed Winnemucca Northern nothing could be learned from Mr. Ferguson. He will return to Winnemucca the latter part of the week.

PAPAL SECRETARY ILL.

Rome, Oct. 16.—Monsignor Montagnani, who was secretary of the papal nunciature at Paris, at the time of the rupture between France and the Vatican in 1905, is critically ill following an operation in Berlin for an affection of the throat.

CIVIC CLUB HAS RECEPTION

Pocatello, Ida., Oct. 16.—The Civic club members of Pocatello were at home in the quarters of the club at the Commerce rooms to the ladies of the city yesterday afternoon. A musical program, in which Mrs. Steele and Mrs. Gallagher, C. D. Smith and Miss Elizabeth Barnes took part, was a feature of the social affair. More than 200 ladies were present. Refreshments were served.

Be Healthy,
Happy, Vigorous

Trembling, Nervous Prostration and that Tired Feeling Vanish after a Treatment of Ambition Pills.

Every run down, weakened, tired out nervous person in Ogden is invited to go to A. R. McIntyre, Drug Co., this very day and get a 50 cent box of Wendell's Ambition Pills.

And the McIntyre Drug Co. and dealers everywhere are authorized to refund the purchase price to every buyer if after taking one dose he is for any reason dissatisfied.

Don't delay, Wendell's Ambition Pills have never been offered to the public through advertising, but thousands have regained vigor, ambition and energy by the use of one box.

Get them and take them for any nervous trouble, weakness, headaches, hysteria, neuritis, exhausted vitality, sleeplessness, kidney, liver or stomach ailments, and for constipation. They will make anyone feel fine, happy and vigorous in a few days. Mail orders filled, charges prepaid, by Wendell Pharmaceutical Company, Syracuse, N. Y.

THUGS BEAT AND
ROB JAPANESE

Young Lady Finds Him Helpless—Robbers Remove Shoes and Take \$1500.

Salt Lake, Oct. 17.—Claiming that he was held up by three thugs in Pioneer park and robbed of \$1500 in currency, Henry Oti, a Japanese, is lying in his room, 27 1-2 Richards street, in a serious condition. Oti told the police early this morning that the three men leaped at him from behind trees in the park, and, after striking him on the head with a slugs, took off his shoes and removed the money from his foot where he was carrying it for safety. After stealing the money they beat him with the shoes.

The man was found staggering along the sidewalk on Third South street, between First and Second West streets, by Miss Mollie O'Hara. She recognized the Japanese and, after helping him as far as the La Verne hotel on First West street, called a taxicab and took him home, later notifying the police.

When found the Japanese was barefoot. Later policemen discovered in Pioneer park, at the point where he was held up, a number of papers bearing the victim's name. Nearby was a pool of blood and along the sidewalk to the point where he was found bloody tracks.

A man, whose name was not learned by the police, notified Sergeant Olson of the holdup a few minutes after Miss O'Hara had found Oti and the officer, together with Patrolman Hushand, started to search the neighborhood.

The Japanese was unable to give the police any description of his assailants and after ineffectually saying that the money had been taken from his shoes he became unconscious. How the holdups knew of the whereabouts of the money has not been explained.

About fifteen minutes after the Japanese had been found, R. Raof, a Mexican, ran up to Patrolman Jorgensen on Second South street, between First and Second West streets and excitedly said he had been robbed of \$50. He pointed to two men running west on Second South street as the robbers. Patrolman Jorgensen started in pursuit, firing one shot at the fleeing men, who escaped.

MISCONDUCT CHARGED.

Caldwell, Ida., Oct. 16.—Charges of misconduct in office were yesterday preferred against Watermaster John E. Badley, an official of the United States reclamation service, stationed at the Deer Flat reservoir near here.

Charges somewhat similar in character were investigated by a committee of the Payette-Boise Waterusers association a couple of months ago and the investigators reported that they were unable to substantiate the claims of those presenting the charges. A special meeting of the association will be held on October 25 to make an investigation.

EPILEPTIC
FITS Stop

when the weak nerves that cause the spells are strengthened and kept in good condition by the use of Dr. Guertin's Nerve Syrup. It helps with the first dose.
